Northshore Gold

Black Bottom Hue

The watercolor hue cast by Black Bottom pools can be either blue or green. Because of the intense color they are highly influenced by the surroundings and sunlight.

Midnight Sea

Jet Black

Black Velvet

The Next Generation
of Pool Finishes

You can expect the color of the water to vary depending on a variety of influences such as the position of the sun, whether the day is sunny or overcast, the pool design, the landscaping around the pool and the pool depth. Water color is considered to be subjective and your watercolor will be unique to your pool and its surroundings. Product samples may vary from printed samples. Finish color and consistency may differ due to variations in natural materials, plastering techniques and pool water chemistry. Ask your contractor for a product sample. It is recommended that you view several pools when making a choice on a WetEdge pool finish. Some WetEdge Pool Finishes contain shell blend or moon dust which are crushed abalone and mother of pearl shells. Because of the unique composition of these shells they are not guaranteed from long-term breakdown of loss of color due to pool water chemistry.
